

Redblu Graphics Sustainability Procurement Policy

At Redblu Graphics, we are committed to promoting sustainability in all aspects of our business operations, including procurement. As a bespoke exhibition stand builder based in Glasgow, we recognize the importance of minimising our environmental impact and supporting sustainable practices throughout our supply chain. This Sustainability Procurement Policy outlines our commitment to responsible sourcing, ethical business practices, and environmental stewardship.

1. Ethical Sourcing:

We will prioritise suppliers who adhere to ethical labour practices, including fair wages, safe working conditions, and respect for human rights. Suppliers must comply with all relevant local and international labour laws and regulations.

2. Environmental Responsibility:

a. Sustainable Materials: We will seek to source materials that are environmentally friendly, renewable, and/or recyclable whenever possible. Preference will be given to suppliers who offer products made from recycled materials or sustainably sourced materials.

b. Energy Efficiency: We will prioritise suppliers who demonstrate a commitment to energy efficiency and reducing carbon emissions in their manufacturing processes.

c. Waste Reduction: We will work with suppliers who have measures in place to minimise waste generation and promote recycling and reuse of materials.

3. Local Sourcing:

Whenever feasible, we will prioritise sourcing from local suppliers to reduce transportation emissions and support the local economy. This includes sourcing materials and services from businesses based in Glasgow and the surrounding area.

4. Supplier Diversity and Inclusion:

We are committed to promoting diversity and inclusion in our supply chain. We will actively seek out suppliers from diverse backgrounds, including minority-owned, women-owned, and veteran-owned businesses.

5. Continuous Improvement:

We will regularly review and evaluate our procurement practices to identify opportunities for improvement and innovation in sustainability. We will collaborate with our suppliers to implement sustainable solutions and best practices.

6. Compliance:

All employees involved in procurement activities are expected to adhere to this Sustainability Procurement Policy.

7. Communication and Transparency:

We will communicate our sustainability goals and expectations to our suppliers and stakeholders and strive to maintain transparency throughout our supply chain.

Conclusion:

At Redblu Graphics, we recognise that sustainability is not only a responsibility but also an opportunity to create positive change. By integrating sustainability into our procurement practices, we are committed to reducing our environmental footprint, supporting ethical business practices, and contributing to a more sustainable future.

This policy will be regularly reviewed and updated to ensure its effectiveness and alignment with our sustainability objectives.
